

Make Your Own Alien Baby

How to construct an Alien (refer to diagram):

1. Fold fabric strip in half, right sides together.
2. Press both top edge seam allowances $\frac{1}{2}$ inch down on the wrong side of the fabric.
3. Sew each side with a $\frac{1}{2}$ in seam, backstitching at the beginning and end of each seam.
4. Turn Alien baby right side out.
5. Fill the baby with seed corn.
6. Topstitch the top edge closed, leaving a $\frac{1}{2}$ inch opening at the center. Backstitch at the beginning and end of each seam.
7. Paint Alien baby faces as desired.

Materials

What you need for each Alien baby:

- 9" x 5" strip of plain weave cotton fabric, such as muslin
- $\frac{1}{2}$ cup seed corn
- Fabric paint if you want to have some fun!
